工业人员安全证书的设备记录(格式 IP)

前言

1 随着近海行业和能源行业的发展，已出现新的海上工业活动。因而对安全载运往返于其他船舶和/或海上设施的工业人员产生了日益增长的需求。

2 认识到现有国际海事组织文书中的安全标准并未完全涵盖近海行业内海上作业的特定风险，例如人员转移作业。

3 此外，认识到在制定本规则时，工业人员是尚未在《1974年国际海上人命安全公约》(《安全公约》)第 I/2 条中定义的特殊类别人员。

4 然而，还认识到国际海事组织现有文书对工业人员缺乏明确定义以及缺乏船上载运工业人员的国际安全标准所带来的困难。

5 为满足近海行业和能源行业的需求并克服困难，已制定《载运工业人员船舶安全国际规则》(《IP 规则》)，以补充现有的国际海事组织文书。除《安全公约》规则中的货船要求外，本规则提供载运工业人员船舶的国际安全标准，通过解决与作业相关的附加风险，促进安全载运和安全转移。

6 本规则针对《安全公约》第 I/2(d)条定义的国际航行船舶制定。然而，认识到大量工业人员的运输在特定沿海国范围内进行，或者在基地港口和领海以外的海上设施之间进行。为促进载运工业人员的船舶的国际航行和安全营运，鼓励主管机关也对只从事该航行的船舶适用本规则。

7 本规则适用于 500 总吨及以上的船舶。然而，认识到 500 总吨以下的船舶载运的乘客、特殊人员和工业人员的总人数也可能超过 12 人。在此情况下，主管机关可尽实际可行应用本规则的目标和功能要求。如果该船符合《IP 规则》，主管机关可考虑向载运 12 名以上工业人员的船舶签发《工业人员安全证书》，但证书中应注明所有放宽。

第 I 部分 总 则

Model Industrial Personnel Safety Certificate Record of Equipment for the Industrial Personnel Safety Certificate (Form IP)

Preamble

1 As the maritime offshore and energy sectors are expanding, new offshore industrial activities have emerged. This in turn has created a growing demand to provide for the safe carriage of industrial personnel to and from other ships and/or offshore facilities.

2 It is recognized that the safety standards in the existing IMO instruments do not fully cover specific risks of maritime operations within the offshore sectors, such as personnel transfer operations.

3 Furthermore, it is recognized that, at the time of developing this Code, industrial personnel are a special category of persons yet to be defined in regulation I/2 of the International Convention for the Safety of Life at Sea (SOLAS), 1974.

4 However, the difficulties caused by the lack of a clear definition for industrial personnel and the lack of an international safety standard for the carriage of industrial personnel on board in the existing IMO instruments are also recognized.

5 The International Code of Safety for Ships Carrying Industrial Personnel (IP Code) has been developed to supplement existing IMO instruments in order to meet the demand from the offshore and energy sectors and overcome these difficulties. The Code, in addition to the cargo ship requirements in SOLAS regulations, provides an international standard of safety for ships carrying industrial personnel which will facilitate safe carriage and safe personnel transfer by addressing additional risks connected to such operations.

6 The Code has been developed for ships operating on international voyages as defined in SOLAS regulation I/2(d). However, it is recognized that the transport of a large number of industrial personnel will take place either within the confines of a particular coastal State or between a base port and an offshore installation outside territorial waters. To facilitate international movement and safe operations of ships carrying industrial personnel, Administrations are encouraged to apply this Code also to ships operating only on such voyages.

7 The Code applies to ships of 500 gross tonnage and upwards. However, it is recognized that ships below 500 gross tonnage may also carry an aggregated number of passengers, special personnel and industrial personnel in excess of 12. In such cases the Administration may apply the goals and functional requirements of the Code as far as practicable. If such ships are in compliance with the IP Code, Administrations may consider issuing an Industrial Personnel Safety Certificate for a ship carrying more than 12 industrial personnel, as long as all relaxations are indicated in this certificate.

PART I GENERAL

1 Goal

The goal of this Code is to provide for the safe carriage of industrial personnel on ships and their safety during personnel transfer operations by addressing any risks present not adequately mitigated by the applicable safety standards in the International Convention for the Safety of Life at Sea (SOLAS), 1974.

2 Definitions

2.1 *Carriage* means transportation, accommodation or both.

2.2 *Essential systems* mean systems referred to in SOLAS regulation II-2/21.4.

2.4 *Industrial personnel (IP)* means all persons transported or accommodated on board for the purpose of offshore industrial activities performed on board other ships and/or offshore facilities.

2.5 *IP area* is every area or space where IP are normally intended to stay during voyage or are allowed to access.

2.6 *Offshore industrial activities* mean the construction, maintenance, decommissioning, operation or servicing of offshore facilities related, but not limited, to exploration and exploitation of resources by the renewable or hydrocarbon energy sectors, aquaculture, ocean mining or similar activities.

2.7 *Personnel transfer* means the full sequence of the operation of transferring personnel and their equipment at sea to or from a ship to which this Code applies and from or to another ship or an offshore facility.

2.8 *SOLAS* means the International Convention for the Safety of Life at Sea, 1974, as amended.
